

The \$30,000 record high-seller from Yardley's 2010 sale. An exciting individual who offers an outcross pedigree, perfect phenotype, and impressive data with no blemishes. All this combined with coming from one of America's most disciplined breeding programs makes High Regard one of the most exciting purebred Simmental bulls to surface in quite some time.

*"I'm 77 years old, and I've spent my life selecting and breeding this set of cows. This is the type of bull I've spent my life trying to produce. He's about as complete an individual as you could raise, and I've raised thousands of them."* -- Gib Yardley
