MITTEN MAN X IMPULSE / GRISSELY MITTEN

Repair Man

He CAN do it all!

The first crop of Repair Man calves are here with AWESOME reports! He combines the right traits we all need in our cattle; muscle, depth of side, soundness, disposition and power. As the '09 National Western Stock Show Grand Champion Chianina bull, the Repair Man is double registered ChiMaine and Maine-Anjou. The Repair Man is a multi-functional sire to produce not only females, yet has the performance to sire bulls and steers. His pedigree is backed by a "never miss cow" and "does it all" sire that continue to produce high selling cattle for Willers. Use him this spring!

CONSISTENT, NO "THROW AWAY" CALVES! Big boned, stout, vigorous, hairy.
